SUMMARY

Data Analyst at Unity Small Finance Bank with a passion for leveraging data to uncover actionable insights and solve business challenges. Proficient in SQL, Power BI, Python, and VBA, I specialize in data analysis, reporting, and ensuring data integrity. With a strong interest in personal finance, I aim to help individuals and organizations make informed decisions through efficient data-driven strategies.

WORK EXPERIENCE

Data Analyst | Unity Small Finance Bank, Mumbai

Jan 2024 - Present

- Developed automated solutions in Excel VBA and AWS Redshift, reducing report generation times and minimizing human error.
- Retrieved and analyzed large datasets from AWS Redshift and S3, improving data accessibility for reporting and decision-making.
- Identified data quality issues such as null PAN numbers and validated loan parameters (e.g., outstanding amounts, Days Past Due), enhancing database integrity and compliance.
- Designed and developed interactive Power BI dashboards to deliver actionable insights for several teams.
- Created user-friendly VBA userforms to simplify report generation and improve user interaction.

INTERNSHIP EXPERIENCE

Data Analyst Trainee | Unity Small Finance Bank, Mumbai

Jan 2024 - May 2024

- Improving VLOOKUP efficiency for large datasets, reducing processing time from 2.5 hours to 2-5 minutes using advanced algorithms.
- Implementing various automation projects, including branch pendency and user productivity reports, resulting in faster, more reliable data handling and reporting processes.

Database Project Intern | Cafemutual, Mumbai

Jun 2023 - Aug 2023

- Cleaning and updating existing database on netcore.
- Collecting MFDs data from AMFI website using selenium library in python and storing it in Excel.
- Dividing the MFD database into 4 parts based on location using geopy library in python.
- Comparing the new and existing database to find common values using pandas in python.

Data Analyst | Skills-Enrich, Pune

May 2022 - Jul 2022

- Using Web Scraper extension in chrome to scrape schools' data and storing it in MS Excel.
- Using python to remove duplicate values and fill-in missing values.
- Visualize and present the data in MS PowerPoint for quick and reliable decision making.

SKILLS

Programming Languages -

- Python
- SQL
- VBA
- HTML/CSS

Software -

- Jupyter notebook
- PowerBI
- Tableau
- Visual Studio Code
- Excel
- PowerPoint
- MySQL
- AWS Redshift

PROJECTS

Tax Calculator using Flask

Freelance Project

- Developed and deployed an income tax calculator using Python Flask, HTML, and CSS, hosted on PythonAnywhere.
- Integrated the calculator into the client's website using an iframe for seamless access.
- Enabled tax comparison across three regimes (old, new, and proposed) to help users assess tax implications.
- Optimized deployment by leveraging cloud hosting, ensuring accessibility without additional server costs.

Bike Revenue Analysis using SQL Server and Power BI

Personal Project

- Designed and implemented a Microsoft SQL Server database with three tables to store bike revenue data for 2021 and 2022.
- Developed SQL queries to extract and transform key revenue insights for Power BI analysis.
- Built an interactive Power BI dashboard to visualize revenue trends and support data-driven pricing decisions.
- Analysis that recommends a conservative price increase of 10-15%, segmented pricing strategies, and continuous market monitoring to optimize revenue without impacting demand.

Faster VLOOKUP

Unity Small Finance Bank

- Reduced VLOOKUP operation time from 2.5 hours to 2-5 minutes for a database with over 100,000 rows.
- Developed VBA macros to automate the VLOOKUP process, eliminating the need for manual intervention.
- Enhanced system performance by implementing dictionaries for faster data retrieval.
- Created a user-friendly interface by using Userforms in VBA and adding instructions.

EDUCATION

B.Sc. Data Science

2021 - 2024

Symbiosis Skills and Professional University, Pune
CGPA - 8.65

12th - PCM

2021

DAV Centenary Public School, Haridwar
Percentage - 86.4%

10th

2019

DAV Centenary Public School, Haridwar
Percentage - 91.6%

ADDITIONAL COURSES

Python for Everybody Specialization

Coursera | University of Michigan

Privacy Law and Data Protection

Coursera | University of Pennsylvania

What is Data Science

Coursera | IBM

Excel Fundamentals for Data Analysis

Coursera | Macquarie University
